1. Identification

1.1. Product identifier

Product Identity: VeriKine™ Mouse Interferon Alpha ELISA Kit
Alternate Names: Product No. 42120, VeriKine™ Mouse IFN Alpha ELISA Components

1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use: See Technical Data Sheet.
Application Method: See Technical Data Sheet.

1.3. Details of the supplier of the safety data sheet

Company Name: PBL Assay Science
Address: 131 W Ethel Road Suite 6
Piscataway, NJ 08854 USA

Emergency: CHEMTREC (USA) (800) 424-9300
Customer Service: PBL Assay Science Phone: 1 (732) 777 9123
Fax: 1 (732) 777 9141

2. Hazard(s) identification

2.1. Classification of the substance or mixture

Note: This product is a kit, shipped with individual containers. The hazards in section 2 and ingredients in section 3 are for the individual components.

Component 1 SMP167 (Coated Plates): No applicable GHS categories
Component 2 SMP022 (Wash Solution Concentrate): No applicable GHS categories
Component 3 SMP166 (Mouse IFN Alpha Standard): No applicable GHS categories
Component 4 SMP169 (Sample Buffer): No applicable GHS categories
Component 5 SMP170 (Antibody Concentrate): No applicable GHS categories
Component 6 SMP024 (Concentrate Diluent): No applicable GHS categories
Component 7 SMP179 (HRP Conjugate Concentrate): No applicable GHS categories
Component 8 ASD (Assay Diluent): No applicable GHS categories
Component 9 KET (TMB Substrate solution): No applicable GHS categories
Component 10 SCY (Stop Solution): No applicable GHS categories
2.1. Classification of the substance or mixture

Skin Corr. 1B; H314 Causes severe skin burns and eye damage.
Eye Dam. 1; H318 Causes serious eye damage.

2.2. Label elements

Using the Toxicity Data listed in section 11 and 12 the product is labeled as follows.

**Danger**

H314 Causes severe skin burns and eye damage.
H318 Causes serious eye damage.

[Prevention]:
P260 Do not breathe mist / vapors / spray.
P264 Wash thoroughly after handling.
P280 Wear protective gloves / eye protection / face protection.

[Response]:
P301+330+331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P303+361+353 IF ON SKIN (or hair): Remove / Take off immediately all contaminated clothing. Rinse skin with water / shower.
P304+340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
P305+351+338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing.
P310 Immediately call a POISON CENTER or doctor / physician.
P363 Wash contaminated clothing before reuse.

[Storage]:
P405 Store locked up.

[Disposal]:
P501 Dispose of contents / container in accordance with local / national regulations.

---

### 3. Composition/information on ingredients

There are no ingredients in this kit from Components 1 to 9 except 8 and 10 which are classified as hazardous, and/or no hazardous ingredients above the GHS cut off percentage. The hazardous ingredients for Component 8 ‘Assay Diluent’ & 10 "Stop Solution" are listed here.
## Component 8 ASD (Assay Diluent)

This product contains the following substances that present a hazard within the meaning of the relevant State and Federal Hazardous Substances regulations.

<table>
<thead>
<tr>
<th>Ingredient/Chemical Designations</th>
<th>Weight %</th>
<th>GHS Classification</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Albumins, blood serum</td>

<td>[1]</td>
</tr>
</tbody>
</table>

In accordance with paragraph (i) of §1910.1200, the specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

1. Substance classified with a health or environmental hazard.
2. Substance with a workplace exposure limit.
3. PBT-substance or vPvB-substance.

*The full texts of the phrases are shown in Section 16.

## Component 10 SCY (Stop Solution)

This product contains the following substances that present a hazard within the meaning of the relevant State and Federal Hazardous Substances regulations.

<table>
<thead>
<tr>
<th>Ingredient/Chemical Designations</th>
<th>Weight %</th>
<th>GHS Classification</th>

</tbody>
</table>

In accordance with paragraph (i) of §1910.1200, the specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

1. Substance classified with a health or environmental hazard.
2. Substance with a workplace exposure limit.
3. PBT-substance or vPvB-substance.

*The full texts of the phrases are shown in Section 16.

## 4. First aid measures

### 4.1. Description of first aid measures

**General**

In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person.

**Inhalation**

If inhaled remove to fresh air. If not breathing give artificial respiration. If breathing is difficult, give oxygen.

**Eyes**

Check for and remove any contact lenses. Immediately flush eyes with ample amounts of water for at least 15 minutes. Cold water may be used. Get medical attention if irritation occurs.

**Skin**

If large quantity of any component is in contact with the skin, wash with ample amounts of soap and water for at least 15 minutes. Cover the skin with an emollient. Get medical attention if irritation develops. Cold water may be used.

**Ingestion**

If the person is conscious wash mouth with water. If large quantity of any component is swallowed call a physician immediately. Loosen any tight clothing.

### 4.2. Most important symptoms and effects, both acute and delayed

**Overview**

IMMEDIATE CONCERNS: CAUTION: May cause eye or skin burns. Avoid vapor.

POTENTIAL SIDE EFFECTS
EYES: Tissue destruction and permanent eye damage may occur if not treated immediately.
SKIN: May be corrosive and cause severe burns.
INGESTION: Corrosive to mucous membranes of the mouth, esophagus, stomach & throat.
INHALATION: Avoid mist, can be a severe irritant.
ACUTE TOXICITY: Eye, skin, lung burning may be caused with exposure to mist. Avoid mist.
TARGET ORGAN STATEMENT: Contains material which may cause damage to gastrointestinal tract and respiratory tract. See section 2 for further details.

Eyes
Causes serious eye damage.

Skin
Causes severe skin burns and eye damage.

5. Fire-fighting measures

5.1. Extinguishing media
Small Fire: Use DRY chemical powder. Large fire: Use water spray, fog or foam. Do not use water jet.

5.2. Special hazards arising from the substance or mixture
Combustion of Animal Protein Products may emit toxic fumes.
There are no hazardous decomposition products for the remaining components of the Component.
Do not breathe mist / vapors / spray.

5.3. Advice for fire-fighters
Use an approved/certified respirator or equivalent. Use protective clothing to avoid contact with skin and eyes.

ERG Guide No.  ----

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
Put on appropriate personal protective equipment (see section 8).

6.2. Environmental precautions
Do not allow spills to enter drains or waterways.
Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

6.3. Methods and material for containment and cleaning up
Wear safety glasses, lab coat and use an approved certified respirator or equivalent. Must wear safety gloves. Avoid breathing vapors, mist or gas.
7. Handling and storage

7.1. Precautions for safe handling
Avoid breathing vapors, contact with skin or ingestion. Wear a fully-buttoned lab coat and safety gloves while working with the product.
See section 2 for further details. - [Prevention]:

7.2. Conditions for safe storage, including any incompatibilities
Handle containers carefully to prevent damage and spillage.
Store between -5°C and 40°C.
Incompatible materials: Avoid contact of metals and strong bases with the TMB Stop Buffer.
Refer to the protocol supplied for proper use. If questions arise please contact technical support at info@pblassaysci.com.
See section 2 for further details. - [Storage]:

7.3. Specific end use(s)
No data available.

8. Exposure controls and personal protection

8.2. Exposure controls

Respiratory: NIOSH approved respirator for pure Sodium Azide in powder form (no Sodium Azide is present in this product).

Eyes: Protective safety glasses recommended

Skin: Lab coat, safety gloves

Engineering Controls: Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.

Other Work Practices: Safety showers and eye wash stations should be provided in areas where this product is used. Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

See section 2 for further details. - [Prevention]:

9. Physical and chemical properties

Physical State and Appearance: All components besides the plates are in liquid state. HRP Conjugate Concentrate is light brown in color. All remaining components are Colorless. The color of the liquid components may vary with time or change in pH. Liquid

Odor: Odorless

Odor threshold: Not determined

pH: Not Measured

Melting point / freezing point: Not Measured

Initial boiling point and boiling range: Not Measured

Flash Point: Not Measured

Evaporation rate (Ether = 1): Not Measured

Flammability (solid, gas): Not Available

Upper/lower flammability or explosive limits: Lower Explosive Limit: Not Measured

Upper Explosive Limit: Not Measured
9.2. Other information
No other relevant information.

10. Stability and reactivity

10.1. Reactivity
Hazardous Polymerization will not occur.

10.2. Chemical stability
All components are stable at recommended storage conditions. At the supplied concentration, TMB Stop buffer can react with metals and strong bases.

10.3. Possibility of hazardous reactions
Reacts with some bases.

10.4. Conditions to avoid
Extreme temperatures

10.5. Incompatible materials
Avoid contact of metals and strong bases with the TMB Stop Buffer.

10.6. Hazardous decomposition products
Reaction of TMB Stop Buffer with metals and strong bases: Hydrogen chloride, Chlorine, Hydrogen Gas and Oxides of Sulfur.
Combustion of Animal Protein Products may emit toxic fumes.
There are no hazardous decomposition products for the remaining components of the Component.

15. Regulatory information

Regulatory Overview The regulatory data in Section 15 is not intended to be all-inclusive, only selected regulations are represented.

Toxic Substance Control Act (TSCA) All components of this material are either listed or exempt from listing on the TSCA Inventory.

WHMIS Classification D2B E

US EPA Tier II Hazards Fire: No
Sudden Release of Pressure: No
Reactive: Yes
Immediate (Acute): Yes
Delayed (Chronic): No

Note: Strong inorganic acid mists containing sulfuric acid are listed on the California Proposition 65 Carcinogen List. [Sulfuric acid, in and of itself, is not listed under Proposition 65. However, if one has sulfuric acid, which through its intended use generates an acid mist that in turn contains sulfuric acid that would meet the listing. The term "strong" does not refer to the concentration of the acid, but rather the strength of the acid. The basis for the listing of strong inorganic acid mists containing sulfuric acid was the formal identification by the National Toxicology Program (NTP), in its Ninth Report on Carcinogens, that this chemical mixture is "known to be a human carcinogen." (Public notice available at http://www.oehha.ca.gov/prop65/CRNR_notices/admin_listing/intent_to_list/noil19b4.html.)]
EPCRA 311/312 Chemicals and RQs (lbs):
- Hydrochloric acid (5,000.00)
- Sulfuric acid (1,000.00)

EPCRA 302 Extremely Hazardous:
- Hydrochloric acid
- Sulfuric acid

EPCRA 313 Toxic Chemicals:
- Hydrochloric acid
- Magnesium nitrate
- Sulfuric acid

Proposition 65 - Carcinogens (>0.0%):
To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

Proposition 65 - Developmental Toxins (>0.0%):
To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

Proposition 65 - Female Repro Toxins (>0.0%):
To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

Proposition 65 - Male Repro Toxins (>0.0%):
To the best of our knowledge, there are no chemicals at levels which require reporting under this statute.

New Jersey RTK Substances (>1%):
- Hydrochloric acid
- Sulfuric acid

Pennsylvania RTK Substances (>1%):
- Hydrochloric acid
- Sulfuric acid

16. Other information

The information and recommendations contained herein are based upon data believed to be correct. However, no guarantee or warranty of any kind, expressed or implied, is made with respect to the information contained herein. We accept no responsibility and disclaim all liability for any harmful effects which may be caused by exposure to our products. Customers/users of this product must comply with all applicable health and safety laws, regulations, and orders.
The full text of the phrases appearing in section 3 is:
H314 Causes severe skin burns and eye damage.
H335 May cause respiratory irritation.

Disclaimer: For R & D use only. Not for drug, household or other uses. Warranty: The above information is correct to the best of our knowledge. This information is not guaranteed to be all inclusive. The user should handle all materials with care using the SDS as a guideline only. PBL Biomedical Laboratories shall not be held responsible for any damage resulting from handling or from contact with the above product.
